Objective

Computer Science student seeking opportunities to apply technical skills in real-world projects and gain practical experience in software development and cybersecurity.

Education

B.E. in Computer Science and Engineering
Mangalore Institute of Technology and Engineering
2024 – Present

Skills

- Programming: C, Python, Java (basic/intermediate)
- Web: HTML
- Tools: Git, GitHub, VS Code, Postman, Code Blocks
- Concepts: Data Structures, OOP, API basics, Cybersecurity fundamentals

Projects

1. API Security Risk Analysis

- Analyzed public APIs using Postman and browser developer tools
- Identified potential vulnerabilities like weak authentication and data exposure
- Documented risks and suggested basic security improvements

Internship / Training

Trainee – Future Interns (Virtual)

- Completed task-based training focused on practical skills
- Worked on API security and basic development tasks
- Gained hands-on exposure to tools like Postman and DevTools

Certifications

- Infosys certified
- Mathworks certified
- UiPath certified

Additional Information

- Interested in Cybersecurity and Backend Development
- Actively learning through projects and online resources
